

Block bottom bags

We have a wide range of block bottom bags. Block bottom bags are very suitable for packing chocolate, nuts and sweets because the bags remain standing up, because of the flat bottom and rectangular shape. Block bottom bags are also widely used for packaging luxury items and gifts. Below you will find the different types of block bottom bags that we can supply.

Block bottom bags with sealed bottom

Block bottom bags with sealed bottom are made of OPP 40 my, transparent (unprinted). Thanks to the sealed bottom, the bags are 100% closed so that they are leak-proof. A sealed bottom is stronger than a stuck bottom.

Block bottom bag with glued silver bottom cardboard

Block bottom bag with glued silver bottom cardboard has a sealed bottom with a glued silver bottom cardboard on the underside. This means you do not have to put a loose bottom cardboard in your block bottom bag yourself. The bags stay in place thanks to the glued on bottom board and the packaged product is being presented nicely.

Block bottom bags in paper kraft look with window

These block bottom bags are made of OPP, but are printed in matte brown to give them a natural kraft paper look. Because the bags are completely made out of OPP, they are very suitable for packing greasy- or oily foods, such as roasted nuts. The bags are provided with a large window for the best presentation of your product.
