

Cross bottom bags

Cross bottom bags are very suitable for packaging chocolate, nuts and sweets. The design of the cross-bottom bag makes it ideal for packaging round products such as chocolate figures and gift items. Below you will find the different types of block bottom bags that we can supply.

Cross bottom bags

Cross bottom bags are manufactured from OPP 30 my. The bags are transparent (unprinted).

Cross bottom bags with glued silver bottom cardboard

Cross bottom bags with a glued silver bottom cardboard have a silver cardboard on the underside of the bag. As a result, you do not need to place a loose bottom cardboard in your cross bottom bag. The bag stays in place thanks to the glued on bottom board and the packaged product is being presented nicely.
