Flat bags

We supply flat bags with a side seal and flat bags with a back seal. Flat bags are often used for packaging flat products, such as cookies, bars, and other food items. Flat bags are also ideal for packaging items such as cards or brochures.

Flat bags sideseal

Flat bags made of clear OPP or CPP with a thickness of 30 microns. Flat bags with side seams ensure an attractive presentation because no seal seams are visible.

Article number	Description	Packed per
3233	OPP flat bag 80 x 170 mm 30my	1000
3232	OPP flat bag 100 x 150 mm 30my	1000
