Side-gusset bags

Side gusset bags feature side gussets and a sealed bottom. This makes the bags easy to fill by hand, but machine filling is also possible. The side gusset bag can be used both horizontally and vertically for various food products, such as chocolate, cookies, and candy. Use anti-condensation side gusset bags for packaging fresh vegetables. Side gusset bags are made from 30 my and 35 my OPP. Custom-made bottom cartons are also available in gold, red, and black.

Side-gusset bags

Side gusset bags can be filled either manually or by machine. Side gusset bags are suitable for packaging cookies, chocolate, and candy. Use a bottom cardboard insert for a sturdy base and even better presentation of your product.
